NEW QUESTION: 1

Is this a true statement about a General Availability (GA) feature?

Solution: It is available to all eligible customers.

A. Yes

B. No

Answer: ([SHOW ANSWER](#))

Explanation

<https://developer.okta.com/docs/reference/releases-at-okta/>

A feature in General Availability (GA) is new or enhanced functionality that is enabled by default for all customers. Beginning in February 2017, features move from EA (enabled by request) to GA (enabled for all orgs) in a regular cadence:

* EA features become GA in preview orgs in the first release of the month.

* These same features become GA in production orgs in the first release of the next month.

Features in GA are supported by Okta Customer Support, and issues are addressed according to your Customer Agreement with Okta.

Documentation for features in GA release are not marked with any icons.

NEW QUESTION: 2

Is this a task that can be performed by an Okta Administrator who has been assigned the Super Administrator role?

Solution: Create users

A. Yes

B. No

Answer: B ([LEAVE A REPLY](#))

A. Yes

B. No

Answer: (SHOW ANSWER)

Explanation

https://help.okta.com/en/prod/Content/Topics/Apps/Apps_Overview_of_Managing_Apps_and_SSO.htm

NEW QUESTION: 14

An employee who has left a company used an application that does NOT support lifecycle management. Is this a task generated by Okta to remind the administrator to offboard the employee?

Solution: Deprovisioning task

A. Yes

B. No

Answer: (SHOW ANSWER)

Explanation

Employee leaves an organization

As employees leave an organization, a process can be initiated by various departments to deactivate users. The user account needs to be deactivated. Deprovisioning deactivates the user account from the Okta Universal Directory. Deprovisioning ensures that persons who are no longer in your organization do not have access to sensitive applications and data.

You can deprovision users in Okta or from an external user store, such as AD or a CRM app, such as Salesforce. Typically, user deactivation is triggered from an external user store and it flows into Okta. In any case, deactivated users are automatically deprovisioned from supported apps. Admins receive an email describing any apps that require them to manually deprovision from users.

<https://help.okta.com/en/prod/Content/Topics/Provisioning/lcm/lcm-lifecycle-event-triggers.htm>

NEW QUESTION: 15

Is this statement true regarding the lifespan of an unused API token in Okta?

Solution: It is brought directly into production after beta closes.

A. Yes

B. No

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 25

Is this a true statement about deleting Okta user accounts?

Solution: After an account is deleted, an administrator can reuse the deleted user name.

A. Yes

B. No

Answer: ([SHOW ANSWER](#))

Explanation

Permanently delete an end user account

You can permanently delete a deactivated user with the Delete button that appears in the directory screen for that user. You cannot undo this deletion. After the deletion, the user is not visible on the People page and is not returned in API responses. However, any log entries that reference the user are maintained. After deletion you can reuse the user name and other identifiers.
