NEW QUESTION: 1

In a Manufacturing Cloud post production support environment, a user wants to update some of the operations in the work orders by using the Midpoint Scheduling feature. However, the user is unable to update any of the orders.

Identify two reasons.

- A. The work order operations do not have operations start or completion date.
- B. The scheduled resources are not part of the organization selected by the user.
- C. The operations are missing sequence.
- D. None of the operations include scheduled resources.

Answer: C,D (LEAVE A REPLY)

NEW QUESTION: 2

A plant runs 24x7 daily using three continuous shifts of 8 hours each. One unit of an equipment resource R1 is assigned to each of the three shifts. On a specific work order, the resource R1 is required to work for 2 hours.

The resource is set up with an efficiency of 50% and utilization of 100%. R1 is scheduled to start on the given work order at noon.

What time will R1 be scheduled to finish, assuming no calendar exceptions have been set?

- A. 2:00 PM
- B. 12:30 PM
- C. 1:00 PM
- D. 8:00 PM
- E. 4:00 PM

Answer: E (LEAVE A REPLY)

NEW QUESTION: 3

During a Manufacturing Cloud implementation, the customer request to develop Oracle Transactional Business Intelligence reports that are not available out-of-the box.

Identify the tool that is available to the Report Developer in Manufacturing Cloud to develop the reports.

- A. Oracle Business Intelligence Application
- B. Oracle Business Intelligence Publisher
- C. Oracle Business Intelligence Standard Edition
- D. Oracle Business Intelligence Enterprise Edition

Answer: B (LEAVE A REPLY)

NEW QUESTION: 4

The Plant Manager informs you that they have bought several machines for their manufacturing plant ABC.

The plant has been set up with a separate cost element set ABC in Manufacturing Cloud. You are requested to configure these machines in such a way that those are costed to the work order for which operations are performed on these machines.

Identify the correct setup that you will advise to the Plant Manager.

- A. Set up the machines as cost element type of "Overhead" by selecting Cost Element set ABC.
- B. Set up the machines as cost element type of "Resource" by selecting Cost Element set ABC.
- C. Set up the machines as cost element type of "Overhead" by selecting Cost Element set Common.
- D. Set up the machines as cost element type of "Resource" by selecting Cost Element set Common.

Answer: D (LEAVE A REPLY)

NEW QUESTION: 5

A Work Center created a month ago is no longer in use now. You want to remove the Work Center; however, the system is not allowing you to delete it.

Identify three reasons for this.

- A. The work center is being referenced in the Work Area.
- B. The Work Center is being referenced in the Open Work Order.
- C. The Work Center is being referenced in the Closed Work Order.
- D. There are resources associated with the Work Center.
- E. The work center is being referenced in the work definition operation.

Answer: A,B,D (LEAVE A REPLY)

NEW QUESTION: 6

A manufacturing cloud user wants to print information available in the work order in PDF. Identify the three reports that the user can print directly from the work order screen using the Print PDF action.

- A. Print Labels
- B. Bill of material
- C. Resource List
- D. Print Component List
- E. Work Order Traveler

Answer: A,D,E (LEAVE A REPLY)

NEW QUESTION: 7

Identify the three changes that are allowed to be made to active Work Definition in a Work Center, without creating a new version.

- A. Delete an Operation
- B. Costing Priority
- C. Add an Operation
- D. Completion Subinventory
- E. Production Priority

Answer: C,D,E (LEAVE A REPLY)

NEW QUESTION: 8

In a manufacturing plant, the work definition and rate plans of Material, Resource, and Overhead of an assembly have been defined as required.

A cost accountant created different scenarios to represent different manufacturing and cost assumptions and compare the results. When the cost assumptions are finalized, the cost accountant is expected to publish the cost scenario to cost accounting.

Identify three process steps that the cost accountant has to perform to transfer the assembly to cost accounting in frozen type.

- A. Create Accounting Distributions.
- B. Transfer Transactions from Inventory to Costing.
- C. Transfer transactions from production to Costing.
- D. Define a cost planning scenario with Material, Resource, Overhead cost plans, and work definition.
- E. Publish cost planning scenario to Accounting.
- F. Build cost planning scenario and perform cost roll up.

Answer: A,B,D (LEAVE A REPLY)

NEW QUESTION: 9

In your customer's manufacturing facility, different types of Movement Requests are created. Key manufacturing components are issued to the work orders from the manufacturing

subinventory. The manufacturing subinventory receives its supplies from the Warehouse subinventory through automatically created Movement Requests.

Which type of Movement Requests should you use to fill the manufacturing subinventory from the Warehouse subinventory?

- A. Batch Wave Movement Requests
- B. Replenishment Requests
- C. Pick Wave Movement Requests
- D. Requisition Movement Requests

Answer: D (LEAVE A REPLY)

NEW QUESTION: 10

A Manufacturing Engineer in a plant is creating an alternative manufacturing process for an item using its existing Work Definitions. After copying from the existing Work Definition WD1 to the alternative Work Definition WD2, the engineer finds that the operation items were not copied in the alternative manufacturing process WD2.

Identify the reason.

- A. The StartData was not populated in the new Work Definition WD2 during creation.
- B. The Production Priority was not populated in the new Work Definition WD2 during creation.
- C. The Item and Structure Name in the existing Work Definition WD1 were retained in the new Work Definition WD2 as well during creation.
- D. The Item and Structure Name were changed in the new Work Definition WD2 during creation.

Answer: A (LEAVE A REPLY)

NEW QUESTION: 11

The Manufacturing plant has two 8-hour shifts for the work center WC1: Day Shift and Night Shift. You associate four units each for resources R1, R2, R3, and R4 to the work center WC1. The customer wants to assign all units of resource R2 available for Day and Night Shift. Identify the correct sequence of steps to achieve this requirement.

- A. Associate Resource R2 with Work Center WC1> Deselect the Available 24 Hours check box> Resource Availability region> Enter 4 in Day Shift Column> Enter 4 in Night Shift Column.
- B. Associate Resource R2 with Work Center WC1> Deselect the Available 24 Hours check box> Resource Availability region> Enter 2 in Day Shift Column> Enter 2 in Night Shift Column
- C. Associate Resource R2 with Work Center WC1> Select Available 24 Hours check box> Resource Availability region> Enter 4 in Day Shift Column> Enter 4 in Night Shift Column.
- D. Associate Resource R2 with Work Center WC1> Select the Available 24 Hours check box> Resource Availability region> Enter 2 in Day Shift Column > Enter 2 in Night Shift Column.

Answer: D (LEAVE A REPLY)

NEW QUESTION: 12

The Manufacturing Engineer, responsible for creating and maintaining the Work Definitions, has scheduled the Process Item Structure Changes to Work Definitions program. However, after the execution of the program the engineer did not receive a notification with the details of the Item Structure changes.

Which two reasons could cause this?

- A. The engineer does not have Data access to Items.
- B. The engineer does not have the Manage Work Definitions function privilege.
- C. The engineer does not have Data access to Items Attributes.
- D. The engineer does not have Data access to Manufacturing plant in which the Item Structure change was performed.
- E. The engineer does not have Data access to Item Structures.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 13

You are reviewing the production status of your manufacturing plant shop floor as a production supervisor.

Your production manager wants a report on a work order status which is reserved against a particular customer. The final assembly of the work order is serialized.

Which option shows the steps to complete the task using the mobile application?

- A. Select the infotile Customer to open the work order details page> Click Actions and select the E-mail icon> Select required work orders>Select the e-mail client, enter the recipient's e-mail, and click Send.
- B. Search the work order by customer name to open the work order details page> Click Actions and select the E-mail icon> Select required work orders> Select the e-mail client, enter the recipient's e-mail, and click Send.
- C. Use your mobile camera to scan the bar coded serial number of the final assembly> Upload the barcode to open the work order details page > Click Actions and select the E-mail icon> Select required work orders> Select the e-mail client, enter the recipient's e-mail, and click Send.
- D. Use your mobile camera to scan the bar coded serial number of the final assembly> Upload the barcode to open the work order details page> Select required work orders> Click Social icon (OSN) > Select recipient, and click Share.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 14

To reduce the subassembly stock with no impact on material planning of child components of the subassemblies stock, you need to modify the multilevel item structure of a product.

Identify the action that meets this requirement.

- A. Change the Supply Type = Push in Item definition and Work Definition, for subassemblies having high inventory stock.

B. Change the Supply Type = Assembly Pull in Item definition and Work Definition, for subassemblies having high inventory stock.

C. Change the Supply Type = Phantom in Item definition and Work Definition, for subassemblies having high inventory stock.

D. Change the Supply Type = Operation Pull in Item definition and Work Definition, for subassemblies having high inventory stock.

Answer: B (LEAVE A REPLY)

NEW QUESTION: 15

Identify the three sources from which supply chain orchestration (SCO) can create the work orders.

A. Planning

B. Order Management

C. Quality

D. Inventory Min-Max Planning

E. Procurement

Answer: A,B,E (LEAVE A REPLY)

NEW QUESTION: 16

In a manufacturing plant, a production operator in a given shift completes a car assembly and reports this using orderless completion by referencing a Work Definition.

Identify the two purposes of the referenced Work Definition in Orderless reporting.

A. Resource usage

B. Processing steps

C. Scrap material

D. Return material

E. Material usage

NEW QUESTION: 17

As a production supervisor, you require immediate access to critical shop floor execution systems to take action while on the go.

Which four work order related actions can be taken in the Manufacturing Supervisor mobile application?

- A. Executing standard work order and updating item and resource usage
- B. Reviewing customer information of work orders
- C. Creating a new standard or non standard work order
- D. Releasing work orders using quick swipe details
- E. Searching for work orders and sending them through e-mail
- F. Reviewing operation, component, and resource detail

Answer: B,D,E,F (LEAVE A REPLY)

NEW QUESTION: 18

Identify three requirements fulfilled by nonstandard work orders.

- A. Repair
- B. Rework
- C. Prototype
- D. Rescheduling

Answer: A,B,C (LEAVE A REPLY)

NEW QUESTION: 19

In a manufacturingcloud implementation, production operators want to perform work order updates using Dispatch List.

Identify two tasks that the Dispatch List allows the production users to perform.

- A. Report Component Returns
- B. Report Resource Transactions
- C. Report Material Transactions by Quantity and Serial Number
- D. Report Cost Transactions
- E. Report Receipts

Answer: B,C (LEAVE A REPLY)

NEW QUESTION: 20

During a Manufacturing Cloud implementation, the Production Supervisor wants to close the work orders for last month and wants to make sure that the work orders include the correct cost.

Identify the approach to be taken by the Production Supervisor.

- A. Work order costs can be updated anytime regardless of the status of the work order.
- B. The Production Supervisor need not include cost variances while costing last month's work orders because those can be applied directly in subledger accounting.
- C. The Production Supervisor should make sure that all costs are included while closing last month's work orders; however, variances can be included after closing the work orders.

D. The Production Supervisor needs to include all costs and variances in last month's work orders and close them; however, the work orders where updates are expected, should not be closed.

Answer: D (LEAVE A REPLY)

NEW QUESTION: 21

The Cost Accountant has reported to the Production Supervisor that the Work Order transactions are not getting transferred to Costing.

Identify the reason for work order transactions not getting transferred to Costing.

A. The Costing Interfaced Attribute is not enabled in the resource definition.

B. The Manage Item Rules setup is not complete.

C. The Costing Interfaced Attribute is enabled in the resource definition.

D. The item was made inactive after the Work Order transaction.

Answer: A (LEAVE A REPLY)

NEW QUESTION: 22

You can generate and manage work order exceptions in Oracle Manufacturing Cloud. Which users can report production exception and who gets notified after an exception is raised?

A. The Production Operator can report an exception and the application generates a notification that is sent to all users with the role of production supervisor who have access to the manufacturing plant.

B. The Production Operator can report an exception and the application generates a notification that is sent to all users who have access to the manufacturing plant.

C. The Production Operator or Manufacturing Engineer can report an exception and notifies the production supervisor using Oracle Social Network since there is no system generated notification.

D. The Production Operator can report an exception and notifies the production supervisor using Oracle Social Network since there is no system-generated notification.
