NEW QUESTION: 1

Whenever you change dimensionality in a target cube, what action on the Data Maps page must you take to ensure that you see metadata changes immediately?(Choose the best answer.)

- A. Select the corresponding data map, and Synchronize to refresh the data,
- B. Select the corresponding data map, and execute the Synchronize Defaults Business.
- C. Select the corresponding data map, and Refresh the Database.
- D. Select the corresponding data map, and execute the Synchronize Components Business Rule.

Answer: C (LEAVE A REPLY)

NEW QUESTION: 2

What would be the recommended module-based cube architecture for a company wanting to enable Financials and Capital, as well as create a Detailed Sales Forecasting cube with complex allocations and calculations, corresponding sales reporting cube, and consolidated reporting cube? (Choose the best answer.)

- A. 3 BSO cubes (1 required for the modules +2 custom BSO cubes), 2 ASO cubes
- B. 3 BSO cubes (2 required for the modules +1 custom BSO cube), 2 ASO cubes
- C. 2 BSO cubes (1 required for the modules +1 custom BSO cubes), 2 ASO cubes
- D. 3 custom BSO cubes, 2 ASO cubes

Answer: B (LEAVE A REPLY)

NEW QUESTION: 3

What three tasks can you perform in the Data Management Workbench? (Choose three.)

- A. Validate
- B. Maintain Process Tables
- C. Delete Integration
- D. Export
- E. Import

Answer: A,D,E ([LEAVE A REPLY](#))

NEW QUESTION: 4

In what three ways can Service Administrators implement EPM Automate in Planning?(Choose three.)

- A. To copy data from an aggregate storage database to a block storage database
- B. To copy data from a block storage database to an aggregate storage database
- C. To execute scripts that complete tasks using a scheduler
- D. To import and export metadata, data, artifacts and snapshots
- E. To promote financial plans to the next level in the approval hierarchy

Answer: B,C,D ([LEAVE A REPLY](#))

Explanation

Copy data from one database to another; typically, from a block storage database to an aggregate storage database. You can create scripts that are capable of completing a wide array of tasks and automate their execution using a scheduler. Import and export metadata, data, artifact and application snapshots, templates, and Data Management mappings.

NEW QUESTION: 5

Which statement describes infolets? Choose the best answer.

- A. Infolets help you quickly analyze data and understand key business questions by presenting a visual overview of high-level, aggregated information.
- B. Infolets help you organize, track, and prioritize your workload.
- C. Infolets help you personalize focused data slices that you frequently use for analysis.
- D. Infolets are predefined dashboards that give you insight into overall project financials and expense and revenue metrics.

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 6

A company has enabled Financials and now would like to make changes to the initial configuration. Which three changes can be made? (Choose three.)

- A. Disabling already enabled features
- B. Removing custom dimensions
- C. Enabling Expense
- D. Enabling Rolling Forecast
- E. Enabling Income Statement
- F. Adding custom dimensions

Answer: C,D,E ([LEAVE A REPLY](#))

NEW QUESTION: 7

In Financials, you want to see asset related expenses such as depreciation, amortization, and insurance.

Which describes the steps you can take to set this up? (Choose the best answer.)

- A.** On the Configure page for Capital, select the option to map Capital accounts to financial accounts. Then for each Capital account, select a financial account to map to.
- B.** On the Configure page for Financials, select Asset Accounts to set up the accounts from Capital that map to Financials.
- C.** Set up the Equipment Expense Reporting Capex data map to map asset related expenses to Financials.
- D.** On the Configure page for Financials, when enabling features, include a custom dimension to store asset related information.

Answer: A ([LEAVE A REPLY](#))

NEW QUESTION: 8

Which statement is true when executing a lifecycle management migration? Choose the best answer.

- A.** Importing Dimensions will remove members that do not exist in the snapshot.
- B.** Selected slices of data can be imported into Essbase.
- C.** All forms that do not exist in the snapshot will be deleted.
- D.** Restoring Essbase data from a snapshot will remove any data that doesn't exist in the backup.

Answer: B ([LEAVE A REPLY](#))

NEW QUESTION: 9

Which three metadata artifacts can be exported to a flat file? (Choose three.)

- A.** Dimensions
- B.** Smart Lists
- C.** Exchange Rate Tables
- D.** Data Entry Forms
- E.** Linked Reporting Objects

Answer: A,B,C ([LEAVE A REPLY](#))

NEW QUESTION: 10

Which three Financials members within the Plan Element dimension allow for forecast and plan data entry?

(Choose three.)

- A.** OFS_Form Entry
- B.** OFS_% Increase/(Decrease)

- C. OFS_Trend
- D. OFS_Input
- E. OFS_Direct Input

Answer: A,B,C (LEAVE A REPLY)

NEW QUESTION: 11

Which two statements are true regarding the creation and management of business rules in module-based Planning? (Choose two.)

- A. Pre-defined business rules for modules may be modified, but may be ignored after an application upgrade.
- B. Modules cannot use regular business rules. Instead, they must be scripted using Groovy.
- C. Custom business rules for modules can only be created using the graphical designer.
- D. Custom business rules can be created for each module.

Answer: C,D (LEAVE A REPLY)

NEW QUESTION: 12

When calculating a tiered type of tax, what should be the selected 'Maximum Value Type'? (Choose the best answer.)

- A. Threshold Amount
- B. Percentage of Overall Earnings
- C. Percentage of Salary
- D. Percentage of Taxable Earnings
- E. Flat Amount

Answer: A (LEAVE A REPLY)

Explanation

Setting the Maximum Value Type to Threshold Amount is available only for Taxes.

NEW QUESTION: 13

Which three describe what you can do with Valid Intersections? (Choose three.)

- A. filter cell intersections to users when they enter data or select runtime prompts
- B. specify that certain programs are valid only for some periods or departments.
- C. allow all users to select from a non-filtered list of members on the form's point of view
- D. prevent the user from executing any type of Calculation Manager rule that uses runtime prompts
- E. restrict cells containing invalid data, setting them to a read-only state within forms.

Answer: A,B,C (LEAVE A REPLY)

NEW QUESTION: 14

What are four types of values that can be used in business rule run-time prompts? (Choose four.)

- A. String

- B. Smart Lists
- C. Date as Number
- D. Member or members
- E. Integer
- F. Substitution Variables

Answer: B,C,D,F ([LEAVE A REPLY](#))

NEW QUESTION: 15

In Projects, which three types of revenue and expense assumptions drive data calculations?
(Choose three.)

- A. Plan start year
- B. Working days and hours
- C. Discount rates
- D. Program mappings
- E. Project rates
- F. Standard rates

Answer: B,D,E ([LEAVE A REPLY](#))

NEW QUESTION: 16

When setting up a datamap, which two options are available for handling unmapped dimensions? (Choose two.)

- A. Selecting multiple unmapped dimension members on the source to map to multiple unmapped dimension members on the target
- B. Selecting a single unmapped dimension member on the source to map to a single unmapped dimension member on the target
- C. Selecting multiple unmapped dimension members on the source to map to a single unmapped dimension member on the target
- D. Selecting a single unmapped dimension member on the source to map to multiple unmapped dimension members on the target

Answer: B,C ([LEAVE A REPLY](#))

NEW QUESTION: 17

You want to share detailed benefits data from Workforce with Financials.

Which statement describes the steps you must take? Choose the best answer.

- A.** Enable and configure Financials, and Workforce. When enabling Workforce, create a custom Benefits dimension to map the data to. Then for the Financial Statement Integration data map, synchronize and push the data.
- B.** Enable and configure Financials, and Workforce. Then to capture Workforce expenses for employees, enable Standard Rates from Workforce. For the Compensation Data for Reporting data map, synchronize then push the data.
- C.** Enable and configure Financials and Workforce. Then in the Workforce Benefits and Taxes wizard, select a financial account to map the benefit to. For Compensation Data, synchronize and run the data map.
- D.** Enable and configure Financials, and Workforce. When enabling Financials, create a custom Benefits dimension to map the data to. On the Financials Integration Summary form, run Calculate Compensation to update the Workforce data.

Answer: B (LEAVE A REPLY)

NEW QUESTION: 18

In order to set up weekly planning for a continuous 18 months, which three options would need to be selected when initially configuring Financials? (Choose three.)

- A.** Rolling Forecast
- B.** Weeks to months mapping
- C.** Plan Element dimension
- D.** Weekly Planning
- E.** Custom Periods

Answer: A,C,D (LEAVE A REPLY)

NEW QUESTION: 19

Several users continuously use custom-created formulas in Excel to supplement their Planning form inputs.

What is another design alternative to reduce offline Excel maintenance? Choose the best answer.

- A.** Smart forms
- B.** Reports
- C.** Cell commentary
- D.** Smart push
- E.** Ad hoc forms

Answer: (SHOW ANSWER)

NEW QUESTION: 20

Which three statements are TRUE for Sandboxes?(Choose three.)

- A.** After you enable sandboxes for a cube, you can later disable that option.

- B.** You can enable sandboxes for all Planning cubes and Reporting cubes.
- C.** You can enable sandboxes only in Planning cubes and for custom cubes created in module-based Planning, not for Reporting cubes.
- D.** After you enable sandboxes for a cube, you can't later disable that option.
- E.** If you enable sandboxes for a cube, Version members have the Enable Sandboxes option.

Answer: C,D,E ([LEAVE A REPLY](#))

NEW QUESTION: 21

Which option is true when implementing access permissions in Planning? (Choose the best answer.)

- A.** Planning roles can be assigned to members in all dimensions in all modules in the application
- B.** Users and groups are restricted from accessing applications by removing custom application and plan-type security
- C.** A member that is set to read that has a parent with write access to all descendants will result in an access level of read

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 22

Which three are benefits of using EPMEnterprise Cloud Service over EPM Standard Cloud Service? (Choose three.)

- A.** enable preseeded configurable content including dimensions, models, forms, rules, dashboards, infolets, and reports for Strategic Modeling
- B.** Custom Planning, which allows a high degree of business process customization to support business requirements
- C.** use of the Groovy scripting language to create or customize business rules
- D.** deploy more than one supported business process in the same instance
- E.** with Free Form Planning, deploy Planning business processes with no dimension requirements and create business processes using Essbase outline files

Answer: ([SHOW ANSWER](#))

NEW QUESTION: 23

Which three security design principles can help reduce overall security maintenance and troubleshooting, while still balancing security control? (Choose three.)

- A.** Creating groups over assigning individual access permissions to users
- B.** Assigning global read access to each cube, then fine-tuning none and write access within dimensional security
- C.** Configuring single sign-on (SSO)
- D.** Using inherited permissions
- E.** Assigning a higher level role than necessary, then scaling back accesspermissions

Answer: A,D,E ([LEAVE A REPLY](#))

NEW QUESTION: 24

Which REST API method would be used to execute a job in Planning? (Choose the best answer.)

- A. POST
- B. GET
- C. EXECUTE
- D. PUT

Answer: C ([LEAVE A REPLY](#))

NEW QUESTION: 25

Which two are benefits of enabling Use Database Suppression in Smart Push? (Choose two.)

- A. It automatically merges comments, attachments, and supporting detail when mapping a cube for reporting.
- B. It allows you to continue using the application while Smart Push runs in the background.
- C. It enables you to apply row suppression at the database level instead of the application level.
- D. It helps eliminate the impact on query thresholds and improving wait times.

Answer: C,D ([LEAVE A REPLY](#))
