

## SAP.C-TS422-2020.v2022-07-01.q57

<b>Exam Code:</b>	C-TS422-2020
<b>Exam Name:</b>	SAP Certified Application Associate - SAP S/4HANA Production Planning and Manufacturing
<b>Certification Provider:</b>	SAP
<b>Free Question Number:</b>	57
<b>Version:</b>	v2022-07-01
<b># of views:</b>	1176
<b># of Questions views:</b>	570
<a href="https://www.dumpsdb.com/dumps/SAP/C-TS422-2020/SAP.C-TS422-2020.v2022-07-01.q57">https://www.dumpsdb.com/dumps/SAP/C-TS422-2020/SAP.C-TS422-2020.v2022-07-01.q57</a>	

### NEW QUESTION: 1

You are using heuristic SAP\_ERP\_001. Which of the following criteria are included in the automatic source determination logic when a planned order is created?

- A. Vendor rating
- B. Costs
- C. Quota arrangement
- D. Delivery date
- E. Component availability

**Answer:** ([SHOW ANSWER](#))

### NEW QUESTION: 2

You produce your material based on a forecast derived from historical sales and expect it to be in inventory when your customer orders. If customers order more than the forecasted quantity, you want to increase production to try to meet the extra demand. Which is the appropriate planning strategy to use?

- A. 10 - Anonymous make-to-stock
- B. 50 - Planning without final assembly
- C. 20 - Make to order production
- D. 40 - Planning with-final-assembly

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 3**

How can Production Planning and Detailed Scheduling (PP/DS) enhance the standard planning functionality?

- A. By providing multilevel material requirements planning
- B. By providing cross-plant planning and deployment
- C. By providing replenishment proposals with exact times
- D. By providing future demands from demand figures in the past

**Answer: C ([LEAVE A REPLY](#))**

**NEW QUESTION: 4**

What data can you maintain in the sub items of a bill of material (BOM)? Note: There are 2 correct answers to this question.

- A. Quantity
- B. Installation point
- C. Item type
- D. Scrap percentage

**Answer: A,B ([LEAVE A REPLY](#))**

**NEW QUESTION: 5**

If you use floats to limit dispatching in capacity planning, what type of time element can be reduced by strategy settings while dispatching?

- A. Goods receipt processing time
- B. Queue time
- C. Minimum wait time
- D. Production time

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 6**

If the stock level drops below the reorder stock in reorder point planning, what is the system logic to trigger procurement?

- A. Fill up to the safety stock level
- B. Fill up to the reorder stock level
- C. Fill up based on the lot size procedure
- D. Fill up to the maximum stock level

**Answer: C ([LEAVE A REPLY](#))**

**NEW QUESTION: 7**

The pegging situation was changed because of an MRP heuristic run. What is a capability of dynamic pegging?

- A. It propagates changed sales order priorities to the pegged planned orders

- B. It links receipts from an alternative location in case of a shortage in the default location
- C. It replaces fixed pegging relationships unless they have been created for stock
- D. It enables the propagation of network alerts across the bill of materials structure

**Answer:** ([SHOW ANSWER](#))

#### **NEW QUESTION: 8**

What data processing steps are obsolete if you use SAP S/4HANA Analytics? There are 2 correct answers to this question

- A. Pre computed aggregation views
- B. Online transaction processing (OLTP)
- C. Online analytical processing (OLAP)
- D. Extract on, transformation, and loading (ETL)

**Answer:** A,D ([LEAVE A REPLY](#))

#### **NEW QUESTION: 9**

Which data model changes have been implemented in Sales and Distribution? There are 3 correct answers to this question.

- A. Elimination of document index tables
- B. Elimination of output condition tables
- C. Elimination of customer master tables
- D. Elimination of LIS tables for rebates
- E. Elimination of status tables

**Answer:** ([SHOW ANSWER](#))

#### **NEW QUESTION: 10**

You want to insert an operation at a certain time on a work center. The planning direction is forward. The desired dispatching time coincides with an operation that has previously been dispatched. How does the insertion take place?

- A. The previously dispatched operation stays as is the new operation is inserted after the dispatched operation.
- B. The new operation is inserted at the desired time the previously dispatched operation is moved backward.
- C. The previously dispatched operation stays as is the new operation is inserted before the dispatched operation.
- D. The new operation is inserted at the desired time; the previously dispatched operation is moved forward.

**Answer:** B ([LEAVE A REPLY](#))

#### **NEW QUESTION: 11**

Your client is asking for your advice on material master numbering in SAP S/4HANA. What do you need to consider? Note: There are 2 correct answers to this question.

- A. In Customizing you can decide by material type whether to use the long material number.
- B. The display template for material numbers applies to all clients.
- C. The maximum material number length is 40 for external numbers and 18 for internal numbers.
- D. The number of leading zeros for internal numbers is client-specific.

**Answer: B,C (LEAVE A REPLY)**

#### **NEW QUESTION: 12**

Your company produces a finished good based on a forecast and expects it to be in stock when customers order it. If customers order more than the forecasted quantity, the production quantity should be increased to try to meet the extra demand. Which planning strategy do you use?

- A. Make-to-order production (20)
- B. Make-to-stock production (10)
- C. Planning without final assembly (50)
- D. Planning with final assembly (40)

**Answer: D (LEAVE A REPLY)**

#### **NEW QUESTION: 13**

For which planning-relevant data objects do you set just one indicator to include them in PP/DS?

There are 2 correct answers to this question.

- A. Plant
- B. Work center
- C. Material
- D. Production version

**Answer: B,C (LEAVE A REPLY)**

#### **NEW QUESTION: 14**

What are some uses for the low-level code assigned to each material? Note: There are 2 correct answers to this question.

- A. It is used in MRP to determine the sequence in which materials are planned.
- B. It is used by ATP to determine the priority of alternative components.
- C. It is used by product costing to determine how costs are rolled up.
- D. It is used by engineering to identify sub items in an engineering bill of material (BOM).

**Answer: (SHOW ANSWER)**

#### **NEW QUESTION: 15**

In the Schedule Production app, which settings can you make in the planning strategy?

Note: There are 3 correct answers to this question.

- A. Scheduling control (finite/infinite)
- B. Planning mode (bucket/sequence)
- C. Fixed pegging (on/off)
- D. Finiteness level (0...1)
- E. Direction (forward/backward)

**Answer: A,B,E (LEAVE A REPLY)**

#### **NEW QUESTION: 16**

What must be used in the system to plan the requirements for different subcontractors separately?

- A. MRP areas
- B. Production versions
- C. Storage locations
- D. Planning plant

**Answer: A (LEAVE A REPLY)**

**Valid C-TS422-2020 Dumps** shared by TrainingQuiz.com for Helping Passing C-TS422-2020 Exam! TrainingQuiz.com now offer the **newest C-TS422-2020 exam dumps**, the TrainingQuiz.com C-TS422-2020 exam **questions have been updated** and **answers have been corrected** get the **newest** TrainingQuiz.com C-TS422-2020 dumps with Test Engine here: <https://www.trainingquiz.com/C-TS422-2020-practice-quiz.html> (150 Q&As Dumps, **40%OFF Special Discount: Exam-Tests**)

#### **NEW QUESTION: 17**

Which of the following is a valid sequence of the main activities in product on order processing?

- A. Creation, release, scheduling, material withdrawal, confirmation
- B. Creation, staging, release, material withdrawal, confirmation
- C. Creation, scheduling, release, variance calculation, confirmation
- D. Creation, scheduling, release, material withdrawal, confirmation

**Answer: D (LEAVE A REPLY)**

#### **NEW QUESTION: 18**

Advanced Planning is delivered with standard out-of-the-box order and resource evaluations. Which evaluations are available? There are 2 correct answers to this question.

- A. Order list
- B. Resource utilization
- C. Resource overview

D. Production list

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 19**

Which task list types can have parallel sequences? There are 2 correct answers to this question.

- A. Master recipes (2)
- B. Routings (N)
- C. Rate routings (R)
- D. Reference operation sets (S)

**Answer:** B,C ([LEAVE A REPLY](#))

**NEW QUESTION: 20**

What is the purpose of a reporting point confirmation in repetitive manufacturing? Note: There are 2 correct answers to this question.

- A. To stage different components for a production line simultaneously
- B. To provide timely updates of inventory management for the staged components
- C. To determine the work in progress along the production line
- D. To reduce the total production lead time for along production line

**Answer:** B,C ([LEAVE A REPLY](#))

**NEW QUESTION: 21**

How can SAP S/4HANA support a GMP compliant production process? Note: There are 3 correct answers to this question.

- A. Recipe approval (with Engineering Change Management)
- B. Predefined GMP compliant process order types to meet audit requirements
- C. Use of the GMP compliant flag in relevant master data applications
- D. Use of the digital signature function to check and run business processes
- E. Documentation of quality data with Quality Management

**Answer:** ([SHOW ANSWER](#))

**NEW QUESTION: 22**

In the first step, you have created master recipes. In which sequence are the additional objects created?

- A. Process order Control recipe PI sheet Process message
- B. Control recipe Process order Process message PI sheet
- C. Process order Control recipe Process message PI sheet
- D. Control recipe Process order PI sheet Process message

**Answer:** A ([LEAVE A REPLY](#))

**NEW QUESTION: 23**

The settings for MRP can be maintained at different levels. If settings have been maintained in different places, in which sequence does the system search for the MRP settings? Please choose the correct answer.

- A. Material Master -> MRP Group -> Plant Settings
- B. MRP Group -> Material Master -> Plant Settings
- C. Material Master -> Plant Settings -> MRP Group
- D. Plant Settings -> MRP Group -> Material Master

**Answer: ([SHOW ANSWER](#))**

#### **NEW QUESTION: 24**

Before a user can add multiple production versions in a material master, what information should be collected?

There are 3 correct answers to this question.

- A. Work center hierarchy
- B. Task list group number
- C. Validity dates
- D. Lot sizes
- E. BOM status

**Answer: ([SHOW ANSWER](#))**

#### **NEW QUESTION: 25**

How would you define pegging in the context of Advanced Planning?

- A. An evaluation that is ordered according to the network structure of all related products and represents the coverage of issue elements with receipt elements.
- B. An evaluation to verify if there are material or capacity shortages in the network after the production planning run.
- C. An evaluation to verify if there are overstock situations in the balance between receipt and issue elements after the production planning run.
- D. An evaluation that is ordered according to the bill-of-material structure of all related products and represents the relationship between the receipt and the issue elements.

**Answer: ([SHOW ANSWER](#))**

#### **NEW QUESTION: 26**

You are working with planning strategy 40 (Planning-with-final assembly). When does consumption of planned independent requirements take place?

- A. When the MRP results are saved
- B. When you create a sales order
- C. When you deliver a sales order
- D. When you create a planned order

**Answer: B ([LEAVE A REPLY](#))**

**NEW QUESTION: 27**

In which data objects do you maintain the production line as the work center for repetitive manufacturing?

Note: There are 2 correct answers to this question.

- A. Repetitive manufacturing profile
- B. Production cost collector
- C. Production version
- D. Routing

**Answer: C,D ([LEAVE A REPLY](#))**

**NEW QUESTION: 28**

The MRP run detected a shortage of a material that you source from an external supplier in full pallets. How can you make sure you will only receive full pallets?

- A. Use the reorder point.
- B. Use the MRP type for vendor managed inventory.
- C. Use the fixed lot size procedure.
- D. Use the minimum order quantity.

**Answer: C ([LEAVE A REPLY](#))**

**NEW QUESTION: 29**

Which data object can be updated with the scheduling results of a routing?

- A. MRP profile
- B. Production version
- C. Production scheduling profile
- D. Material master

**Answer: D ([LEAVE A REPLY](#))**

**NEW QUESTION: 30**

Which bill of material (BOM) categories can you define in SAP S/4HANA? Note: There are 2 correct answers to this question.

- A. Work Center BOM
- B. Class BOM
- C. Functional Location BOM
- D. Sales Order BOM

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 31**

Which of the following business processes are controlled by parameters that are dependent on production order type? Note: There are 2 correct answers to this question.

- A. Engineering change management
- B. Inspection during production

C. Implementation

D. Planning

**Answer: C,D (LEAVE A REPLY)**

**Valid C-TS422-2020 Dumps** shared by TrainingQuiz.com for Helping Passing C-TS422-2020 Exam! TrainingQuiz.com now offer the **newest C-TS422-2020 exam dumps**, the TrainingQuiz.com C-TS422-2020 exam **questions have been updated** and **answers have been corrected** get the **newest** TrainingQuiz.com C-TS422-2020 dumps with Test Engine here: <https://www.trainingquiz.com/C-TS422-2020-practice-quiz.html> (150 Q&As Dumps, **40%OFF Special Discount: Exam-Tests**)

**NEW QUESTION: 32**

Which alternative item strategies are available in bills of materials (BOM) in SAP S/4HANA?

There are 2 correct answers to this question.

A. 100% check

B. Simultaneous

C. By usage probability

D. First in first out (FIFO)

**Answer: A,C (LEAVE A REPLY)**

**NEW QUESTION: 33**

A planner updated a production order status from partially confirmed "PCNF" to technically completed "TECO" by mistake.

What impact would this have to other users for this specific production order?

A. The warehouse clerk still carry out goods issue transactions

B. The production manager can still see the capacity requirements

C. The production operator cannot enter additional confirmations

D. The buyer can still see component reservations

**Answer: C (LEAVE A REPLY)**

**NEW QUESTION: 34**

What is the difference between co-products and by-products?

A. Only co-products appear in the processor production order settlement rule.

B. Only co-products can be manufactured in isolation from the main product.

C. Only by-products have a zero inventory valuation.

D. Only co-products are identified by a special item category in the bill of material (BOM).

**Answer: A (LEAVE A REPLY)**

**NEW QUESTION: 35**

You want to triggering-houseproduction of a semi-finished mater al before a sales order for the corresponding finished good is received. Which planning strategy supports the consumption of planned independent requirements for the semi-finished material?

- A. Planning at assembly level (70)
- B. Make-to-order production (20)
- C. Planning with final assembly (40)
- D. Planning without final assembly (50)

**Answer: D (LEAVE A REPLY)**

**NEW QUESTION: 36**

You need to model goods receipt processing time in Detailed Scheduling. Which modelling options do you have? Note: There are 2 correct answers to this question.

- A. Model a separate resource inthe production data structure.
- B. Model a handling resource in the location master and goods receipt time in the mater all master.
- C. Model a transportation resource in the location master.
- D. Model a resource inbound in the location master.

**Answer: B,C (LEAVE A REPLY)**

**NEW QUESTION: 37**

You are using the document management system (DMS) . Where should the DMS document links be assigned, to have them automatically copied to production orders? There are 2 correct answers to this question.

- A. Bill of material
- B. Work center
- C. Routing header
- D. Material master

**Answer: A,D (LEAVE A REPLY)**

**NEW QUESTION: 38**

What are pillars of SAP Activate? There are 2 correct answers to this question.

- A. SAP Best Practices
- B. Premium engagement
- C. Guided Configuration
- D. SAP MaxAttention

**Answer: A,C (LEAVE A REPLY)**

**NEW QUESTION: 39**

In which data objects do you maintain the production in as the work center for repetitive manufacturing?

There are 2 correct answers to this question.

- A. Production cost collector
- B. Production version
- C. Repetitive manufacturing profile
- D. Routing

**Answer:** ([SHOW ANSWER](#))

#### **NEW QUESTION: 40**

What are the possible categories for the Business Partner master data object in SAP S/4HANA?

There are 3 correct answers to this question.

- A. Group
- B. Organization
- C. Vendor
- D. Person
- E. Customer

**Answer:** A,B,D ([LEAVE A REPLY](#))

#### **NEW QUESTION: 41**

Which technological advances enabled the development of SAP S/4HANA as the digital core?

There are 3 correct answers to this question.

- A. Advances in the three-tier architecture approach
- B. Multi core processors enabling parallelism of tasks
- C. Capability to add to server landscape and scale
- D. Wide adoption of web standards such as Service oriented architecture
- E. Big and affordable memory

**Answer:** B,C,D ([LEAVE A REPLY](#))

#### **NEW QUESTION: 42**

At the end of the MRP run you receive the exception message "Reschedule In Operation".

What caused the message to be generated?

- A. The requirement no longer exists
- B. The requirements date occurs that of a firmed planned receipt
- C. A firmed planned receipt cannot be rescheduled
- D. The requirements date occurs before that of a firmed planned receipt

**Answer:** ([SHOW ANSWER](#))

#### **NEW QUESTION: 43**

In Make-to-order production, which field controls whether the components will be planned as sales order specific stock?

- A. The item category of the component in the BOM
- B. The MRP Type of the component
- C. The Planning Strategy of the finished product
- D. The Individual/Collective indicator of the component

**Answer: D ([LEAVE A REPLY](#))**

#### **NEW QUESTION: 44**

You want to perform capacity availability checks on your production orders. What must be set for this to occur? Note: There are 2 correct answers to this question.

- A. Checking control must have an overall profile assigned in customizing.
- B. PRT Availability check must be set.
- C. Indicator Relevant for finite scheduling must be set.
- D. Checking rule and group must be assigned.

**Answer: ([SHOW ANSWER](#))**

#### **NEW QUESTION: 45**

Which SAP solutions can be used for forecasting in Supply Chain Planning? Note: There are 2 correct answers to this question.

- A. Capacity Requirements Planning (CRP)
- B. Integrated Business Planning (IBP)
- C. Supply Chain Management (SCM)
- D. Material Requirements Planning (MRP)

**Answer: ([SHOW ANSWER](#))**

#### **NEW QUESTION: 46**

What determines whether the planned independent requirements in MRP consume other requirements?

- A. Consumption sequence procedure
- B. Requirements type
- C. Requirements profile
- D. Order type

**Answer: ([SHOW ANSWER](#))**

**Valid C-TS422-2020 Dumps** shared by TrainingQuiz.com for Helping Passing C-TS422-2020 Exam! TrainingQuiz.com now offer the **newest C-TS422-2020 exam dumps**, the TrainingQuiz.com C-TS422-2020 exam **questions have been updated** and **answers have been corrected** get the **newest** TrainingQuiz.com C-TS422-2020

dumps with Test Engine here: <https://www.trainingquiz.com/C-TS422-2020-practice-quiz.html> (150 Q&As Dumps, **40%OFF Special Discount: Exam-Tests**)

**NEW QUESTION: 47**

Which master data object governs the relationship between supply source and demand source in the Kanban process?

- A. Control cycle
- B. Replenishment strategy
- C. Rate routing
- D. Production supply area

**Answer: A (LEAVE A REPLY)**

**NEW QUESTION: 48**

For a production version to be valid and consistent what requirements must be fulfilled?

Note: There are 3 correct answers to this question.

- A. The lot size range must be within the lot-size range of the assigned routing.
- B. The assigned routing must NOT have alternative sequences.
- C. The assigned routing must be a rate routing.
- D. The assigned routing and bill of materials (BOM) must be valid in the entire validity period.
- E. The deletion flag must NOT be set for the bill of materials (BOM) or the routing.

**Answer: A,D,E (LEAVE A REPLY)**

**NEW QUESTION: 49**

How would you define pegging in the context of Advanced Planning?

- A. An evaluation that is ordered according to the bill-of-material structure of all related products and represents the relationship between the receipt and the issue elements.
- B. An evaluation to verify if there are overstock situations in the balance between receipt and issue elements after the production planning run.
- C. An evaluation to verify if there are material or capacity shortages in the network after the production planning run.
- D. An evaluation that is ordered according to the network structure of all related products and represents the coverage of issue elements with receipt elements.

**Answer: A (LEAVE A REPLY)**

**NEW QUESTION: 50**

Mode selection is one of the scheduling options available in Advanced Planning in SAP S/4HANA.

When can you use mode selection?

- A. When multiple planned orders exist in one resource
- B. When multiple production versions are maintained for one product

- C. When multiple operations are maintained for one product
- D. When alternate resources are used within one operation

**Answer: D ([LEAVE A REPLY](#))**

**NEW QUESTION: 51**

When can the material availability check occur automatically in a production order? Note: There are 2 correct answers to this question.

- A. At order creation
- B. At order confirmation
- C. At order release
- D. At order settlement

**Answer: A,C ([LEAVE A REPLY](#))**

**NEW QUESTION: 52**

When working with both cross-plant and plant-specific material statuses in the material master, which status has the highest priority?

- A. The most restrictive status
- B. The least restrictive status
- C. The cross-plant status
- D. The plant-specific status

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 53**

Which options do you have to plan both quantities and capacities during line loading in repetitive manufacturing? Note: There are 2 correct answers to this question.

- A. Assign planned orders manually to the planning table.
- B. Run MRP with automatic selection of production version.
- C. Run MRP with quota arrangement.
- D. Run PP/DS heuristics for repetitive manufacturing.

**Answer: ([SHOW ANSWER](#))**

**NEW QUESTION: 54**

Which of the following is an advantage of MRP Live and NOT available in classical MRP? There are 2 correct answers to this question.

- A. MRP Live can plan materials with recursive BOMs
- B. MRP Live can prioritize demand from sales orders
- C. MRP Live can propose alternative solutions
- D. MRP Live can create production orders automatically

**Answer: C,D ([LEAVE A REPLY](#))**

**NEW QUESTION: 55**

A customer is considering switching from order-related settlement to product-related settlement. What are capabilities of cost collectors? There are 2 correct answers to this question.

- A. They can be used for manufacturing with collective orders.
- B. They can be created automatically during month end process.
- C. They can be applied to make-to-stock production order.
- D. They can be used for repetitive manufacturing.

**Answer: C,D (LEAVE A REPLY)**

#### **NEW QUESTION: 56**

What Kanban status automatically posts goods receipt with reference to the procurement element?

- A. Full
- B. Wait
- C. Empty
- D. In use

**Answer: A (LEAVE A REPLY)**

#### **NEW QUESTION: 57**

You have a quality control check to avoid using a high-value component tin faulty materials in subsequent assembly operations. How do you account for potential scrap of the high-value material?

- A. Enter the operation scrap and set the net indicator in the component of the bill of material of the assembly.
- B. Enter the component scrap in the material master of the assembly and set the net indicator in the routing operation where V Dthe component is used
- C. Enter the component scrap in the component of the bill of material of the assembly and leave the net indicator initial in the bill of material.
- D. Enter the assembly scrap in the material master of the component and set the net indicator in the component of the bill of material of the assembly.

**Answer: B (LEAVE A REPLY)**
